

# Aluminium Diamond Stacking Chairs

StrictlyTables&Chairs

 **Lightweight**  
Fluted Aluminium Frame

## KEY FEATURES

- Larger frame than the steel chairs and a lightweight option
- Fabric and foam FIRA tested to BS:7176 requirements for medium hazard applications suitable for UK general contract use
- Exceeds CRIB 5 Testing
- 25mm x 25mm x 2.0mm aluminium tubing for significant strength advantage over 1.8mm frames
- 2.5" High density foam cushion for additional comfort
- Built in hand hold for easy mobility
- Stack 10 high for easy storage
- Bottoming cloths underneath chair to maintain tidy appearance
- Double support bracing for added strength
- Plastic glides to prevent floor scratching and plastic bumper guards to prevent scratching when stacked
- Seamless back panel - no visible fixings

## LEAD TIMES AND DELIVERY
